

HFOE4X1

1 to 4 Outdoor PoE extender

The 1 to 4 outdoor PoE extender can send 4 video signals through Cat5e/6 cable at the same time. It can transmit up to 100 meters. The 6KV and IP53 protection perfectly for outdoor use.

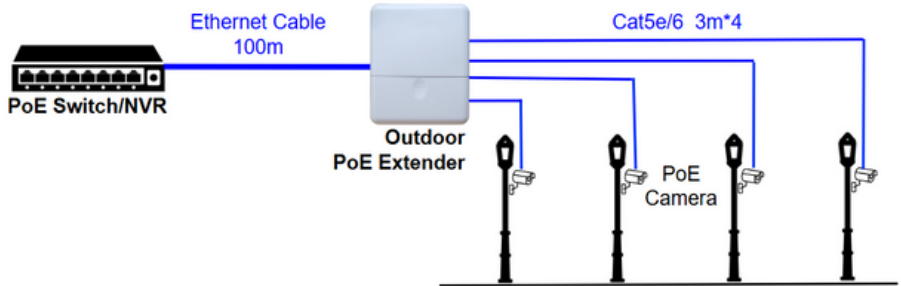

Specification:

Networking Interface	10/100/1000Mbps Ethernet RJ45
Capacity	10Gbps
Power Consumption	Typical: 1.5W / Max: 60W
Lightning Protection	6KV
Transmission Distance	100M (Max.)
Ethernet Standard	IEEE802.3af, IEEE802.3at
Operating Humidity	5%~95% (Non condensing)
Operating Temperature	-30°C to 70°C
Dimension (L x W x H)	125 x 150 x 36mm
Weight	242g

Operation Manual:

1. Remove the power from PoE switch/NVR.
2. Take out the Extender from the box.
3. Connect PoE cameras with Cat5e/6 cable.
4. Connect PoE switch/NVR with Cat5e cable.
5. Then, power on the PoE switch/NVR.

⚠ Notes

Please keep the port clean. The metal chassis should be regularly cleaned with an anti-static cloth. Do not use petrol. Do not expose the metal chassis directly to sunlight, ultraviolet rays, or extreme temperatures. Prevent it from being shocked, and do not immerse it in any liquid.

**Electric etching or engraving by high voltages can destroy the electronic chip.
No warranty will be given!**

Never dismantle the metal chassis housing.
